Social Media Tips

- Make sure to post on social media sites at least weekly, but ideally daily to talk about specials, gaming winners, and prizes to better engage your audience.
- Boosting posts is an excellent way to get the attention of new customers who may not know about you. Spending as little as \$20 a week can go a long way.
- Keep consistent with your brand! Don't use colors that aren't a part of your logo so people remember you.
- Don't always "sell" things - add engaging posts, or asking fun questions is a great way to keep your audience engaged with you.
- Facebook is the best, but other platforms, like Instagram and YouTube are a great way to keep connected. Posts don't have to be different. Posting on different platforms increases your exposure.

Marketing Checklist For Your Business

Marketing your business the right way can make or break you. Having a proper marketing budget is essential to bring in new customers and keep the old ones coming back. Don't take everything on yourself! There are reasonable agencies out there that can help and let you focus on what you do best - running the business!

Branding

Repeat business starts in the mind! A consistent logo, and, colors are vital to get you noticed. These should be uniform on all mailings, brochures, and anything printed.

Web

Let new customers know where you are and how to reach you. Having a website legitimizes your business and gives customers confidence.

Social Media

Connect with your customers from anything to specials to direct communication. Facebook and Instagram are great platforms for this.

SEO, Boosting & Ads

Use Search Engine Optimization to get noticed on Google so new customers can find you. Boost your posts or events on Google and Facebook to target them even further!
